# Biography

DYC, a talented music producer, has been creating beats for over 11 years. He was born in the Democratic Republic of Congo and lived there with his family until he was 12, when they moved to Nigeria. Since then, Nigeria has been his home base for making music. Over the years, DYC has made more than 100 beats for artists from all over the world. In Nigeria, he's worked with big names like Olamide, Vector, Slimcase, Otega, Wale Aro, Lexi Young, Cblvck, Naira Marley, and many others. Outside of Nigeria, he's collaborated with artists like Yannick Jean and DJ Tress.

But DYC isn't just about beats. He's also a talented composer and songwriter. As the Chief Music Officer at Tailored Records, he's the go-to person for anything music-related at the label.

*Right now, DYC is busy putting together his first studio project called "High Land." It's going to feature both experienced veterans and up-and-coming talents from the Lagos Island music scene.*
