# Biography

A Colombian singer-songwriter whose heart beats to the rhythm of her roots. Raised in a home filled with Colombian music and flavors, Cataleya found comfort and inspiration in melodies that spoke to her soul.

Growing up as an only child, music became Cataleya's closest friend. Writing songs became her way of expressing her feelings and finding peace, believing in the power of her music to spread positivity and healing vibes.

Describing her style as "TOTALLY FEMININE," Cataleya celebrates her womanhood through her music. She digs deep into life's deeper meanings, steering clear of shallow topics to make a real statement with her songs.

Now, with Tailored Records backing her, Cataleya is cooking up something special—a single set to break records and touch hearts. Scheduled to drop by April 2024, Cataleya's new tune promises to uplift spirits and move listeners.
